PROFESSIONAL SUMMARY

AI & ML Enthusiast | Scalable AI Solutions

Passionate about designing intelligent, data-driven systems that merge research and real-world application. Skilled in **Machine Learning (ML)**, **Deep Learning (DL)**, and **Generative AI** using **TensorFlow**, **Keras**, and **Gemini AI**. Experienced in building and deploying scalable **ML pipelines** and **AI-integrated** web applications using the MERN stack. With a strong foundation in model development, optimization, and data analysis, I focus on transforming complex datasets into meaningful insights and developing AI systems that enhance decision-making, automation, and user experience.

EDUCATION

Bachelor of Technology (B.Tech) in CSE(AI & ML) 2022 - 2026

Sri Indu Institute of engineering and technology , Hyderabad

CGPA: 7.37

SKILLS

- **Programming:** Python, JavaScript, MongoDB.
- **Frameworks & Libraries:** TensorFlow, Keras, PyTorch, Scikit-learn, NumPy, Pandas, OpenCV, Matplotlib, Seaborn, Hugging Face .
- **MLOps & Deployment:** Docker, FastAPI, Flask, Grafana, Git and GitHub, GCP.
- **Core Competencies:** Machine Learning Model Development, Deep Learning, AI Integration, Model Optimization & Deployment, Scalable System Design .
- **Soft Skills:** Analytical Thinking, Collaboration, Leadership, Adaptability, Empathy.

PROJECTS

- **LeafGuard – Plant Disease Detection**
Built an AI-driven plant disease detection model(CNN) using **TensorFlow** and **ResNet50** on 18K+ leaf images, achieving 95% accuracy with real-time performance tracking via **Grafana**. **Source code** : [\[Github Repository\]](#) | **Live demo** : [\[LeafGuard\]](#).
- **DocuAgent**
A **Generative AI-based** documentation automation tool built using **MERN** and **Gemini AI** .Reduced document generation time by 60% through automation using Gemini AI.
Source code: [\[Github Repository\]](#) | **Live demo** : [\[DocuAgent\]](#).

Certifications

Completed **“The Nuts and Bolts of Machine Learning”** by Google — learned data preparation, model building, and evaluation using Python. Skilled in supervised & unsupervised learning, feature engineering, and performance optimization. [View](#).

Completed **“Google AI Essentials”** by Google — gained practical skills in generative AI, prompt engineering, and responsible AI use. [View](#) .

Completed **“Google Advanced Data Analytics Capstone”** by Google — applied machine learning, regression, and predictive modeling to real-world data projects. [View](#) .
